PROJECTS

WORKING EXPERIENCE

Software Dev/Test Coach - Registers of Scotland
since January 2020

Deliver hands on coaching for the IT Dev community through workshop creation, one-to-one development mentoring sessions and ownership of the testing Community of Practice. Collaboration with fellow coaches and agile product teams to improve the ability to deliver via a DevOps mindset. Involved in the ongoing development of the RoS "grow our own" programme contributing to the creation of the "learning pathways" and multiple initiatives to inspire personal growth within the IT Dev community. Assisting with internal and external recruitment within IT Dev.

Senior QA/Dev in Test - Registers of Scotland
February 2018 - December 2019

Assisted in the design and implementation of modern test automation practices within the Mapping domain and provided coaching to junior developers. Contributed to the delivery of an automated pipeline for new APIs and ETL processes. Encouraged collaborative working via pairing, mobbing and promoting the
